

Burt County Economic Development Corp. (BCEDC)

Demolition Program Guidelines and Application for Residential and Commercial Properties

Purpose – The goal of the BCEDC Demolition Program is to assist eligible communities and/or individuals to demolish blighted and substandard structures for future development. The program was funded by a grant from the Nielsen Foundation and will be administered by Burt County Economic Development for the county. Burt County Board of Supervisors will have the final say in approval of all grants.

Property Eligibility – The structures to be demolished will be located inside the city zoning jurisdictions of the communities in Burt County.

Applicant Eligibility

1. Application must be submitted by owners of property or by the governmental entity
2. Applicant must identify plan for the demolished property, including, but not limited to:
 - a. Rebuilding or selling lot for a new home or business
 - b. Donating the lot to the community for future improvements
3. Property owner must be willing to obtain and sign demolition permit from city/village (if applicable) and the grant application from BCEDC.

Unit Characteristics – Prior to demolition, the unit will be determined vacant, with a clear title – no liens or assessments.

Definition of Blighted Structured – The structure is not habitable as a dwelling, or in the case of a non-dwelling structure, is no longer useful for the purpose for which the non-dwelling structure was intended and which has been designated by the community's code enforcement agency and/or the Board of Health as detrimental to the public health or safety in its present condition and use.

Environmental Review – All inspections must be completed according to the community guidelines in which the building is located.

Financial Assistance – 50% of total demolition cost will be granted for each approved project, with a maximum of \$15,000 for commercial properties.

Repayment Clause - A city can qualify for a demolition grant even if they are not the property owner. If the city receives payment through a lien for the entire demolition cost, they are required to then repay the demolition grant.

Compliance with Requirements Lead-Based Paint and Asbestos Regulations – The applicant must follow State of NE Asbestos regulations in conjunction with this project. Property owners

must provide the final inspection reports from a certified inspector. If asbestos is present, a copy of the delivery/disposal report must also be provided to the BCEDC Board of Directors.

Demolition Process – Upon decision by the County Board to fund the applicant, the following steps will be taken.

1. Contractor selected from two bids provided.
2. Demolition must be completed within one year of approval.
3. Picture of completed project and invoice(s) for project are submitted to BCEDC office.
4. BCEDC will present pictures and invoices to County Clerk for payment.
